ANGSTROM SIGNALS

PRIVATE BETA PARTICIPATION & NON-DISCLOSURE AGREEMENT

Version 2.0 | Confidential

This Private Beta Participation & Non-Disclosure Agreement (the **“Agreement”**) is entered into between:

[Full Legal Entity Name], trading as **Angstrom Signals**, of [Registered Business Address] (the **“Company”**);

and

[Participant’s Full Legal Name], registered with the email address [Email Address] (the **“Participant”**).

Effective Date: The date on which the Participant electronically signs this Agreement.

1. Purpose

Angstrom Signals is a proprietary financial-market analysis platform incorporating technical indicators, market intelligence, analytical research tools, configurable signal systems and related technology (the **“Platform”**).

The Company is inviting selected individuals to participate in its restricted, non-public testing programme (the **“Private Beta”**).

Participation may provide early access to confidential technology, experimental functionality, proprietary research and unreleased product features.

In consideration of being granted access, the Participant agrees to the terms below.

2. Confidentiality and Non-Disclosure

2.1 Confidential Information

“Confidential Information” includes all non-public information disclosed or made available through the Private Beta, including:

- Proprietary signal calculations, algorithms, scoring methodologies, analytical models and technical architecture.
- Unreleased features, interface designs, prototypes, screenshots, demonstrations and product documentation.
- Non-public details of **Lattice**, **Prism**, Signal Groups, Signal Sets, market-scanning tools and strategy-building functionality.
- Internal research, testing results, development plans, commercial strategies and pricing information.
- Private communications and documentation provided to beta participants.

Information is confidential whether or not specifically labelled as such, where its nature or the circumstances reasonably indicate confidentiality.

2.2 Participant Obligations

The Participant agrees to:

- Keep Confidential Information private and use it only for authorised testing.
- Not share, publish, distribute or publicly demonstrate unreleased features or proprietary information without prior written permission.
- Not disclose screenshots, recordings, documentation or technical details to third parties without authorisation.
- Not share account credentials or allow unauthorised individuals to access the Platform.
- Take reasonable precautions to prevent unauthorised access or disclosure.
- Promptly notify the Company of any known or suspected confidentiality breach.

2.3 Exceptions

These obligations do not apply to information that:

- Becomes publicly available without breach of this Agreement.
- Was lawfully known to the Participant before disclosure.
- Is independently developed without using the Company's Confidential Information.
- Is lawfully obtained from another source without confidentiality restrictions.
- Is approved for disclosure by the Company in writing.

Nothing in this Agreement prohibits legally protected disclosures to regulators, law enforcement authorities or other competent bodies, or disclosures required by law.

3. Permitted Use and Access

The Company grants the Participant a limited, personal, non-exclusive, non-transferable and revocable right to access the Private Beta solely for evaluation and testing.

Without prior written authorisation, the Participant must not:

- Reverse-engineer, decompile or attempt to extract proprietary source code or algorithms, except where such restrictions are prohibited by applicable law.
- Copy, reproduce, redistribute or commercially exploit the Platform or its Confidential Information.
- Circumvent access controls, authentication or technical restrictions.
- Conduct unauthorised security testing, automated scraping or activities that interfere with Platform operation.
- Use confidential beta materials to replicate proprietary Angstrom Signals functionality for commercial purposes.

The Participant may freely use their own trading knowledge, independently developed strategies and publicly available analytical methods.

The Company may modify, restrict, suspend or withdraw beta access at its discretion.

4. Intellectual Property and Feedback

All intellectual property rights in the Platform, including its software, proprietary technology, designs, branding, analytical methods and documentation, remain with the Company or its licensors.

Participation does not transfer ownership or grant rights beyond the limited testing access described in this Agreement.

The Participant retains ownership of independently developed trading strategies, personal research and pre-existing intellectual property.

The Participant is encouraged to submit feedback, suggestions, usability observations and bug reports (**"Feedback"**).

By submitting Feedback, the Participant grants the Company a perpetual, worldwide, non-exclusive, royalty-free right to use, adapt and incorporate that Feedback into its products and services without compensation.

This permission does not transfer ownership of the Participant's independently developed trading strategies or personal intellectual property merely because those materials are discussed during testing.

5. Beta Testing and Financial Risk

The Participant acknowledges that:

5.1 Experimental Software. The Platform is under active development. Features may contain errors, inaccurate calculations, incomplete information, delays or interruptions.

5.2 No Guarantee. Market signals, sentiment readings, research results, historical reconstructions and other analytical outputs do not guarantee future market performance.

5.3 No Personalised Investment Advice. Unless separately agreed in writing, the Platform provides informational and analytical tools, not personalised investment recommendations or financial advice.

5.4 Independent Decisions. The Participant remains responsible for their own financial and trading decisions. The Company does not require the use of real funds or live trading during beta testing.

5.5 Availability. Features may be modified, replaced or discontinued without advance notice where reasonably necessary.

The Platform is provided on an **“AS IS”** and **“AS AVAILABLE”** basis, subject to applicable law.

6. Duration, Termination and Continuing Confidentiality

6.1 Term. This Agreement takes effect upon electronic signature and remains in force throughout the Participant’s involvement in the Private Beta.

6.2 Termination. Either Party may end participation. The Company may suspend or revoke access at any time, including where there is a suspected security issue, breach of this Agreement or operational requirement.

6.3 Following Termination. The Participant must stop using restricted beta functionality and, upon reasonable request, delete or return Confidential Information, except where retention is legally required or deletion from routine backups is not reasonably practicable.

6.4 Survival of Confidentiality. Confidentiality obligations continue for **three (3) years after beta participation ends**.

6.5 Trade Secrets. Information qualifying as a trade secret under applicable law remains protected for as long as it retains that legal status, subject to applicable law.

Termination does not affect accrued rights or obligations intended to continue beyond the beta programme.

7. Privacy and Security

The Company may collect and process information necessary to administer the Private Beta, including participant identity, contact details, agreement acceptance records, account activity, technical diagnostics and submitted Feedback.

Personal information will be handled in accordance with the Company’s applicable Privacy Notice and relevant data protection laws.

The Participant agrees to maintain reasonable account security, protect login credentials and promptly report suspected unauthorised access or material security vulnerabilities.

The Participant must not upload third-party confidential information or personal data without appropriate authorisation.

Nothing in this Agreement removes privacy rights or other protections provided by applicable law.

8. Liability, Breach and Remedies

The Participant acknowledges that unauthorised disclosure of proprietary information may cause substantial commercial harm.

In the event of an actual or threatened breach, the Company may pursue available legal remedies, including injunctive relief where permitted by law.

To the extent permitted by applicable law, the Company excludes liability for indirect or consequential losses arising from beta participation, including lost profits, trading losses and business interruption.

Nothing excludes or limits liability for fraud, wilful misconduct or any liability that cannot lawfully be excluded or limited.

The Parties acknowledge that participation does not establish an employment, partnership, agency or advisory relationship and does not entitle the Participant to compensation unless separately agreed.

9. Governing Law and General Terms

9.1 Governing Law. This Agreement is governed by the laws of **[Jurisdiction]**.

9.2 Disputes. Subject to mandatory applicable legal protections, disputes shall fall under the jurisdiction of the courts of **[Location]**. The Parties will first make reasonable efforts to resolve disputes through direct communication.

9.3 Entire Agreement. This Agreement governs the confidentiality and participation obligations of the Private Beta alongside the applicable Platform Terms and Privacy Notice.

9.4 Amendments. Material changes require the Participant's affirmative acceptance before becoming binding, except where applicable law provides otherwise.

9.5 Severability. If any provision is held unenforceable, the remaining provisions shall continue in effect to the extent permitted by law.

9.6 Electronic Signature. The Parties agree that this Agreement may be executed electronically, subject to applicable electronic-signature laws.

PARTICIPANT ACKNOWLEDGEMENT

By signing, I confirm that:

- I have read and understood this Agreement.
- I understand that Angstrom Signals is granting restricted access to a confidential beta programme.
- I agree not to disclose or misuse the Company's Confidential Information.
- I understand that beta features are experimental and may be unreliable.
- I accept that participation does not guarantee trading or investment outcomes.
- I agree to the confidentiality and participation terms set out above.
